

In-line fans

## TDM Series

### TDM

The TDM series of axial fans have been specifically designed to be installed in low pressure ducted systems. Single phase motor 230V-50Hz, Class II, IPX4. Protected against overheating. Suitable to operate within temperatures up to 40°C. The "Z" versions incorporate long life motors fitted with ball bearings.

## Attributes

Models 100 and 200 can be installed within a wall to provide exhaust air operation or to exchange heat between adjacent rooms.
