

Whole house extract unit PIV W Series

PIV W

Ventilation unit that provides supply ventilation in dwellings whose distribution does not allow use of whole house ventilation system.

The unit draws air outdoors, passes air via its G4 filter and supplies it into the house via the hallway.

The unit includes 4 operating schemes with DC and low consumption motor, automatic regulation of airflows and electric battery that allows constant supply temperature.

Configuration:

- Anti-insect G4 filter.
- Electric battery of 500 W.
- Fan with DC motor.
- 1 fixing kit (screw and silent-blocks).
