

Acoustic cabinets fans  
**CHMTC Series**

## Serial CHMTC

### **CHMTC/4 500/205 11KW LG 270 400/690V 50HZ VE**

Acoustic cabinet fans certified F400-120 (CE marked).</p><p>Range of single inlet direct driven low pressure forward curved centrifugal fans manufactured from galvanised sheet steel and protected against corrosion. Internally lined with 7 mm thickness of melamine acoustic foam insulation (M1).</p><p>All models incorporate F400-120 rated motors approved to operate continuously (S1) and in emergency situations (S2).</p><p>All motors are IP55, class H insulation.</p><p>Available, depending upon the model, with three phase motors in 4 or 6 poles.</p><p>Electrical supply: Three phase 230/400V-50Hz, up to 3 kW.</p><p>400V-50Hz, for higher motor powers. (See characteristics chart)</p><p>On request Two speed motors.</p></div><div data-bbox="669 132 916 289" data-label="Image"><img alt="A photograph of a CHMTC Series acoustic cabinet fan, a rectangular metal enclosure with a circular fan inlet on the front and a smaller rectangular inlet on the side."/></div><div data-bbox="674 311 743 360" data-label="Image"><img alt="Icon representing F400-120 certification, showing a fan symbol and the text 'F400-120'."/></div><div data-bbox="757 311 826 360" data-label="Image"><img alt="Icon representing a power supply or motor specification, showing a large letter 'P'."/></div><div data-bbox="840 311 911 360" data-label="Image"><img alt="Icon representing a control panel or electrical connection, showing a panel with a switch and indicator lights."/></div><div data-bbox="95 365 231 381" data-label="Section-Header">
