

Portable electric fan heaters

EP-N Series

EP-N

To provide fan assisted heating to commercial or industrial environments, or for drying applications.

Characteristics

IP24.

Made of steel sheet with a paint coating.

Fitted with a handle to move it.

Quiet axial fan.

Switch enabling an adjustment of the extraction or heating of the units (only fan function; fan and low heating and fan and high heating operation).

Thermostat allowing the setting of the desired temperature of the room.

Rear switch that allows the thermostat to act on both the fan and the heater element or only on the heater (the fan operates permanently).

Contactors.

Thermal protection.

Manual self resetting button (RESET).
