

Cylindrical cased Axial Flow Fans TXBR ECOWATT Series

TXBR-ECOWATT

Range of cylindrical cased axial flow fans with fan casing protected against corrosion by cataforesis and polyester paint finish, with low noise level and dynamically balanced.

Motors

Brushless EC motor with high performance and low consumption, supply $230V \pm 10\%$ 50/60Hz, IP44, ball bearings and thermal protection included. Speed adjustable 100% via potentiometer located in the terminal box or via external control REB-ECOWATT type. Analogue input remote control with a 0-10V external signal.

Additional information

Air direction: form (B) configuration (impeller over motor).

Attributes

Corrosion resistance

Fan casing and support protected by cataforesis and black polyester paint finish.

Terminal box IP65

High efficiency "AMAX" impeller

Designed to ensure the highest and most efficient airflow performance with the lowest noise level.
