Plate mounted axial flow fans
HXM Series

Serial HXM

**HXM-350 *230V 50-60HZ***

The HXM plate mounted axial flow fans are manufactured from pressed galvanised steel and protected from corrosion by a beige epoxy-polyester paint finish. HXM models include impellers manufactured from aluminium sheet (HXM-200 to HXM-350) or steel sheet (HXM-400), finished with black polyester paint. All models include a steel finger proof guard as standard mounted to the inlet side of the fan.

**Motor**

HXM-200 to HXM-350: Single phase speed controllable motor 230V-50/60Hz equipped with thermal protection, IP44, Class B insulation, flexible cable (length: 50cm) for connection to the electrical supplies and ball bearings greased for life.

HXM-400: External rotor motor, IP54, Class F insulation, fitted with thermal protection and wiring terminal box.

**Additional Information**

Standard air direction: form (A) configuration (Motor over Impeller).
